

DSA / Algorithms (Abdul Bari) - Day 18

45-day plan mapped to the Algorithms playlist

Job Sequencing & Optimal Merge

Job sequencing with deadlines and optimal merge patterns.

Watch these Abdul Bari videos

- > 3.2 Job Sequencing with Deadlines - Greedy Method
- > 3.3 Optimal Merge Pattern - Greedy Method

Key concepts

- Job sequencing: maximise profit within deadlines.
- Optimal merge: merge files to minimise total cost.
- Both greedy.

Key idea

Optimal merge always merges the two smallest files first.

Tasks (1.5h)

- ☐ Watch both videos
- ☐ Solve a job-sequencing instance
- ☐ Build an optimal merge tree
