

DSA / Algorithms (Abdul Bari) - Day 25

45-day plan mapped to the Algorithms playlist

Matrix Chain - Formula (Deep)

MCM using the DP formula, in depth (long lecture).

Watch these Abdul Bari videos

> [New] Matrix Chain Multiplication using Dynamic Programming Formula

Key concepts

- Deep walkthrough of the MCM recurrence.
- Order of filling the table (by length).
- Reconstruct the optimal parenthesisation.

Key idea

Fill diagonals of the table from length 2 upward.

Tasks (1.5h)

- ☐ Watch the 52-min lecture
- ☐ Re-derive the recurrence
- ☐ Reconstruct the split points
