

DSA / Algorithms (Abdul Bari) - Day 45

45-day plan mapped to the Algorithms playlist

B/B+ Trees + Hashing + Review

B and B+ trees, hashing technique, and full-course review.

Watch these Abdul Bari videos

- > 10.2 B Trees and B+ Trees. How they are useful in Databases
- > Hashing Technique - Simplified

Key concepts

- B/B+ trees: multi-way balanced trees for databases/disks.
- Hashing: $O(1)$ average lookup, collision handling.
- Review all sections and your notes.

Key idea

B+ trees keep all data in leaves, great for range scans.

Tasks (1.5h)

- ☐ Watch both videos
- ☐ Summarise B vs B+ trees
- ☐ Review all 45 days & make a cheat sheet
