

DSA / Algorithms (Abdul Bari) - Day 15

45-day plan mapped to the Algorithms playlist

Quick Sort

Quick sort algorithm and analysis.

Watch these Abdul Bari videos

- > 2.8.1 QuickSort Algorithm
- > 2.8.2 QuickSort Analysis

Key concepts

- Partition around a pivot, recurse.
- Average $O(n \log n)$, worst $O(n^2)$.
- In place; pivot choice matters.

Key idea

Partition puts smaller left, larger right of the pivot.

Tasks (1.5h)

- ☐ Watch both videos
- ☐ Implement quick sort
- ☐ Explain the worst case
