

DSA / Algorithms (Abdul Bari) - Day 31

45-day plan mapped to the Algorithms playlist

Reliability Design

DP for reliability design.

Watch these Abdul Bari videos

> 4.8 Reliability Design - Dynamic Programming

Key concepts

- Maximise system reliability under a cost budget.
- Stages with device copies.
- DP over stages.

Key idea

Add parallel devices per stage to boost reliability within cost.

Tasks (1.5h)

- ☐ Watch the video
- ☐ State the DP
- ☐ Solve a small instance
