

DSA / Algorithms (Abdul Bari) - Day 34

45-day plan mapped to the Algorithms playlist

Articulation Points & Biconnected

Articulation points and biconnected components.

Watch these Abdul Bari videos

> 5.2 Articulation Point and Biconnected Components

Key concepts

- Articulation point: removing it disconnects the graph.
- Found via DFS discovery/low values.
- Biconnected components have no articulation point.

Key idea

`low[u]` tracks the earliest reachable ancestor via back edges.

Tasks (1.5h)

- ☐ Watch the video
- ☐ Understand low-link values
- ☐ Find articulation points
