

DSA / Algorithms (Abdul Bari) - Day 37

45-day plan mapped to the Algorithms playlist

Graph Coloring

m-coloring via backtracking.

Watch these Abdul Bari videos

> 6.3 Graph Coloring Problem - Backtracking

Key concepts

- Color vertices so adjacent ones differ, with m colors.
- Backtrack when no valid color remains.
- Chromatic number idea.

Key idea

Try colors 1..m per vertex, backtrack on conflict.

Tasks (1.5h)

- ☐ Watch the video
- ☐ Code m-coloring
- ☐ Find a valid coloring
