

DSA / Algorithms (Abdul Bari) - Day 41

45-day plan mapped to the Algorithms playlist

Traveling Salesman (Branch & Bound)

TSP via branch and bound.

Watch these Abdul Bari videos

> 7.3 Traveling Salesman Problem - Branch and Bound

Key concepts

- Reduced cost matrix gives lower bounds.
- Prune branches above the best tour.
- Exact but exponential worst case.

Key idea

Row/column reduction yields the initial lower bound.

Tasks (1.5h)

- ☐ Watch the video
- ☐ Reduce a cost matrix
- ☐ Trace the search tree
